

Bill,
What can I say?!... Not enough, that's for sure. After over a year of helping me plan everything, and you offering so much generosity with your services, the night turned out better than I could have imagined. I wish you could have read my mind the minute I walked in the room and saw everything. The dim lighting with the red uplights and lit up dance floor - it blew me away! You not only have a gift with the music and keeping the party alive, but also with how you create an ambiance in the venues with your lighting. It's incredible! I feel so lucky to have been able to work with the best DJ (on Earth, in my opinion!) twice now! And I hope more opportunities come up in the future! I'll continue to recommend you to anyone and everyone! - Sarah M Priedrich

PS - thanks for putting the bitches to shame! 😊
